

Senior Environmental Consultant - Nuclear

Starting Salary aligned to experience with potential for progression

Affric Limited is a busy consultancy based near Inverness in Scotland, providing professional environmental consultancy services, from feasibility to decommissioning. We support a range of sectors including: the energy industry, nuclear and grid projects; ports and harbours; roads and quarries.

Affric has a small, focused team which provides a friendly supportive working environment, from a beautiful rural highland setting. We currently provide specialist input to the nuclear sector, and are looking to grow this part of our business. This unique role will provide extensive and varied professional development opportunities for the right candidate.

The role

The role will be based primarily in the Nuclear decommissioning sectors providing environmental input to safety cases.

The starting salary will be commensurate with the successful candidate's previous experience. Future progression is not limited and will be determined by performance. Relevant training opportunities to provide personal and professional development are available, with ongoing mentoring provided by our Principal Nuclear Consultant.

The role will be client facing and include:

- Provision of environmental support and input into design processes.
- Production of environmental documentation to support safety cases and consenting processes.
- Optioneering support including the production of Best Practicable Environmental Option (BPEO), Best Available Technique (BAT), Best Practicable Means (BPM) assessments and reports.

The successful candidate will be based in the Affric Office near Inverness but flexible working is also available.

Qualifications / Experience

The successful candidate will have a can-do attitude, fit in with the team and be able to work on their own initiative. In addition, they will have:

- A degree (equivalent) or higher in a relevant scientific or engineering discipline.
- Chartered Environmentalist status (or be working towards it).
- Security clearance or ability to gain security clearance.
- Experience of working on, or for nuclear/complex industrially sites.
- Experience of working in construction and/or demolition sectors.
- Awareness of environmental issues facing the nuclear sector.
- Awareness of Safety Cases and HAZOP methodologies.
- Experience of completing BPEO, BAT and BPM assessments.
- Good working knowledge and understanding of Scottish and UK Environmental Legislation, Policy and Guidance, including waste management.
- Sound understanding of environmental mitigation and pollution prevention techniques.
- Strong report writing, presentation and communication skills (essential).
- Full, clean UK manual driving license (preferred).

How to Apply

Please provide Curriculum Vitae and a cover letter detailing your key skills, aspirations, and salary expectations to info@affriclimited.co.uk.

The selection process will take account of relevant COVID-19 restrictions and guidance, hence details of current location and access to MS Teams or Zoom should be highlighted in your cover letter, to allow appropriate arrangements to be made.
